What BYOA Students Are Saying

My life is changed forever more and I love the tools I have gained in the class.

I thought I was just learning Astrology but I learned so much more. Especially about myself - Didn't know this was going to be a journey of self. AND so much FUN!!!!

The energy of this class is amazing, such an open and safe space.

This class has given me something new to focus on and a wonderful supportive community during such a difficult time. I will never forget this and can't wait for Oracles.

I think I'm no longer afraid of my birth chart which is funtimes

All my questions and mysteries about myself are being answered. And I am learning to answer my own questions myself also but the comfort and support of this group is phenomenal!

They make it easy to understand

Beginners will have no problem.

They do such an amazing job explaining the material. I have retained so much. :)

The Twins sure know how to create a community

I am in the class and 100% beginner! And it is a wonderful supportive community and lots of time to ask questions/ be supported

From this class I have the confidence and feel adept to talk to people about their charts in general. As in social events or at my day job. I do feel confident to do an official reading as well. I will charge when I am ready and I will know it.

One of my cool take aways has been learning how to go from whole house to Placidus system

Astrology at this level allows for so much self-acceptance, understanding and compassion.

I've had to do some deep dives and shadow work during the course of this class. Doing this course has helped me reframe my story and see potential and get deeper understanding of myself, which was an ideal companion to assist me-- especially in processing grief. I finally started to go through my late mother's closet and am feeling so much more life force energy & abundance. AND I have been able to use astrology to help others find hope and insight in their journeys.

BYOA is like Astro "Summer Camp". great experiences.

Astrology has been so inspiring for my life & absolutely love seeing the cosmic connection to EMPOWER yourself with the Stars ✨🌟🌟🌟

Learn our unique approach of Applied Astrology

We believe that astrology readings should transform people's lives and empower them—not deliver a bunch of astro-jargon that confuses your friends, family and clients.

We've been writing and teaching people about astrology for nearly three decades. Our favorite thing to do is “bring the stars down to earth” and help people make sense of them, one bite at a time.

Astrology is NOT a secret society and we don't treat it that way. This cosmic code is the blueprint of your soul. Let us show you how it works and you'll have the keys to ease, freedom and fulfillment—and a skill set you can incorporate into every part of your life.

You don't have to be a “professional astrologer” to prosper from this practical, accessible course. But if an astrology career is on your bucket list, Become Your Own Astrologer has everything you need to confidently step into the role.
